- GUJARATI
- HINDI
- ENGLISH

PROFILE

"As a full-stack developer, I specialize in building responsive user interfaces using HTML, CSS, JavaScript, and React. For backend development, I manage server-side logic using NodeJS, Express.js and MongoDB."

PROJECTS

SUGAR COSMETICS CLONE ||
React || Java Script || Tailwind CSS

- I developed a Sugar Cosmetics website using React, JavaScript, and Tailwind CSS. The website includes user authentication features such as signup, login, logout, and account deletion.
- It also features a product listing page and individual product detail pages, where users can view product information and add items to their cart.
- The cart functionality allows users to increase or decrease product quantities, remove items, and view the total cost of the selected products.

BEWAKOOF BRANDS CLONE ||
React || Java Script || Tailwind CSS

- I developed a website for Sugar Cosmetics using React, JavaScript, and Tailwind CSS. The application includes key features such as user authentication (sign up, login, and logout).
- a product listing page, and individual product detail pages. Users can add products to their cart, adjust quantities, remove items, and view the total cost.
- Additionally, users can place orders by providing their location. All data interactions are managed using a JSON server.

ADMIN PANEL PROJECT ||
NodeJS || ExpressJS || Mongodb

- I developed an Admin Panel project with a complete backend and frontend architecture.
- The backend is responsible for handling requests and responses, managing routes, connecting to MongoDB, and running the server.
- The frontend is built using React and Tailwind CSS, and includes features such as user authentication (login and signup) and a dynamic dashboard interface.

TECHNICAL SKILLS

- Frontend: HTML5, CSS3, JavaScript, jQuery, Bootstrap, Tailwind CSS, React.js
- Backend: Node.js, Express.js, MongoDB
- Tools & Languages: GitHub, C, Media Queries, JSON Server
- Soft Skills: Problem-solving, Team Collaboration, Communication

CERTIFICATES

- Master in Full-stack Development (MERN Stack)
- Participated in Techwar
- 21 Days Consistent Voice Marathon Challenge
